PROFESSIONAL SUMMARY

Detail-oriented and analytical Data Science candidate with robust expertise in machine learning algorithms, statistical modeling, and large-scale data processing. Proven ability to translate complex data sets into actionable business intelligence, optimize predictive models, and deploy scalable AI solutions across cloud architectures.

WORK EXPERIENCE

Data Science Intern

2024-02-01 — Present

AI Dynamics Labs

Engineered predictive machine learning models to forecast customer churn for enterprise clients. Built automated ETL pipelines that processed over 500GB of daily streaming data, reducing model training latency by 35%.

- Improved churn prediction accuracy from 78% to 91%.
- Optimized ETL pipelines, saving 15 hours of weekly manual data processing.

Junior Analytics Consultant (Part-Time)

2023-06-15 — 2023-12-30

TechEdge Solutions

Collaborated with product teams to design interactive Tableau dashboards for executive leadership. Conducted A/B testing analysis that informed key UI redesigns, increasing user retention by 18%.

- Designed 12 real-time executive dashboards in Tableau.
- Identified key user drop-off points, leading to an 18% increase in retention.

KEY PROJECTS

DeepSense — Real-Time Computer Vision Fraud Detector

2024-04-12

Developed an end-to-end deep learning vision model to detect fraudulent identity documents during digital KYC onboarding. Deployed the model via FastAPI and Docker on AWS ECS.

Tech: PyTorch, FastAPI, Docker, AWS, OpenCV

Link: <https://deepsense-kyc-demo.com>

Predictive Health Analytics Platform

2023-10-20

Built a regression-based predictive model to estimate patient readmission risk for a regional healthcare provider. Utilized SHAP values to provide explainable AI insights to medical staff.

Tech: Python, Scikit-Learn, SHAP, Pandas, Streamlit

Link: <https://healthpredict-ai.com>

TECHNICAL SKILLS

Technical: Machine Learning & Deep Learning (PyTorch, TensorFlow), SQL & Database Management (PostgreSQL, MongoDB)

EDUCATION

B.Tech in Data Science

iLEAD Kolkata

Graduation: 2026-06-30

CGPA: 8.7
